EDUCATION

Front-End Engineering

The Iron Yard Academy | Jan 2016 – April 2016

Bachelor's of Science in Graphic Communications

Clemson University | Aug 2009–May 2014

WORK EXPERIENCE

PREPRESS TECHNICIAN AND PRODUCTION ARTIST

Frontier Label | Greenville, SC

July 2014 – January 2016

Preprinted and processed label artwork for customers and ensured that each order would be produced at the best possible quality through one on one communication with customers, creating proofs, color matching to PANTONE specifications and physical samples, and custom artwork modifications and creation.

Optimized imposition and print layout to produce orders in the most cost effective manner throughout all phases of production.

Managed custom artwork requests, creating the necessary creative briefs, quotes, and contracts for each custom artwork creation request, and saw that each order would be assigned and completed in an appropriate time frame.

CREATIVE SERVICES INTERN

Heidelberg USA Inc. | Kennesaw, Ga.

Jan 2013 – May 2013

Worked within established brand guidelines to design company marketing materials, wide format signage, and print samples for use in sales demonstrations. Assisted in the preparation, planning, and execution of four major company marketing events, as well as photographing several of these events for public relations use. Brainstormed new ideas for company marketing promotions.

GRAPHIC DESIGN INTERN

CAMPUS BANNER + DESIGN | Clemson, SC

Jan 2014 – April 2014

Met the graphic design and printing needs of both university and external clients through graphic design, production using wide format printers, and converting and assembly of the final product.

PRODUCTION ASSISTANT

View Digital Media | Central, SC

May 2012 – July 2012

Assisted in the filming and production of the feature length film "The Redemption of the Commons. Duties included editing footage, design and creation of props and production documents, set setup and tear down and managing the movie's website with Wordpress.

PROJECTS

THE KARAOKE MAN

www.thekaraokeman.com

The Karaoke Man is an event management system that allows users to easily host and join karaoke parties. As the final project from my time at the Iron Yard I was tasked with creating a multi page application with CRUD capabilities that solved a unique problem. I partnered with a back-end developer who designed our database while, I created the dynamic user interface and graphics. The application is built with a Django/Python back-end, Backbone JS, and React JS.

MAJESTIC THAI

Majestic Thai is a website for a fictitious Thai restaurant intended to allow users to place their own orders and then submit them online.
